Welcome to our 81st sale, which is an online auction only, comprising 1,151 lots featuring a wide range of Australasian and All-World material.

There are 300 lots of Australian Colonies, with strength in New South Wales and Queensland, and featuring a range of scarce and rare stamps and postal history. A highlight is the study of the Moreton Bay District, the various numeral obliterations shown in the finest quality, and complemented a wonderful group of covers. There is also some fine Tasmanian postal history, and good groups of Wales and Victorian postage due stamps. .

Australian Commonwealth has some useful Kangaroo issues and a wider range of George V stamps concentrating on the plate varieties, with strength in the 1d values. The Decimal period includes the extensive Frama collection of Richard Peck which has been broken into 30 lots.

The postage due issues includes a wide range of the monocolour issues including examples of rarely offered perforation varieties, and a selection of some of the finest covers. The bicoloured issues are also extensive, but are highlighted by three of the most important postage due rarities - the 1909-10 6d Perf. 11 used (the only example in private hands and arguably the Commonwealth's rarest basic stamp), and monogram blocks of 6 of the 1913-21 10/- and £1 thin paper.

The postal stationery has a fine range of George V Fullface and Kangaroo lettercards, a previously unrecorded 1½d George V proof, and the 1½d on 2d Red George V with the view of The Spit, a great rarity.

The small All World section includes a very extensive annotated accumulation of the fascinating local Pakistan overprints on India .

Best regards from

The Team at Millennium Philatelic Auctions.

The correct charge should have been a double deficiency of 3d, and this is clearly a case of the shilling values being accidentally used instead of the pence values. The only such instance of which we are aware, and a clear demonstration of the need to differentiate the shilling values by the addition of a stroke, which did not happen until 1908-9. A number of other (smaller) blocks used in Townsville in 1925-26 are known, and indicate the retention of stocks of this high value for over 20 years. The Southampton landed to determine Campbell's status then returned to Daru. After landing at Daru it was discovered that the hull of the flying boat had been damaged by coral when landing and required repair and the port engine had a serious defect. 1133	*/O/C	1947 'PAKISTAN' Overprints on India, a large bundle of album pages and mounted booklets with a bewildering array of the provisional handstamps created by local post offices after Partition from India, both mint and used with many multiples. Many different types are represented and in most cases allocated to their respective post offices, also a good range of the typewritten provisionals as well. A number of errors (inverted, double or omitted handstamps) were noted. Apart from the KGV issues (Ordinary and Service) to 25r, there is good representation of the obsolete KGV stamps. About 50 covers and items of postal stationery are also included. A very impressive lot which as it stands could be converted into an excellent exhibit, or provide the basis for a much deeper study of the subject. A brief comparison of the materials with the priced catalogue by M. Arif Balamwala published in 2000 revealed numerous stamps catalogued at 2000r and 3000r each (approx 2000)	\$2500
1134	**/*O	-: duplicated mint and (mostly) used range in stockbook with a wide variety of the locally-applied handstamps (both metal and rubber), many used stamps are on small pieces. Virtually all KGV issues up to 10r, including multiples, a notable exception in the KGV 2a M booklet panes of 4 (2). No attempt has been made to allocate any stamps to their post offices of origin, and a number of scarce items may be lurking. The Nasik overprints are also included up to 25r Ordinary and 10r Service. A good lot (approx 600)	\$500
